

Curriculum Vitae – Nicholas P. Bowen, M.D., QME

Education

Board Certified Psychiatrist – American Board of Psychiatry and Neurology, 2020

Psychiatry Residency – Kaiser Permanente Fontana, 2016–2020

Doctor of Medicine – Rush Medical College of Rush University Medical Center, 2012–2016

B.A. Economics – University of California, Berkeley, 2005–2009

Professional Experience

Telecare – Floating Psychiatrist (2023–Present)

Provide psychiatric evaluation, diagnosis, and treatment across Telecare's diverse programs, including Crisis Stabilization Units, Inpatient and Subacute facilities, Residential Rehabilitation, Supported Housing, Full-Service Partnership (FSP), Assertive Community Treatment (ACT), Intensive Case Management (ICM), Forensic ACT, and Conservatorship programs. Ensure continuity of care across multiple program sites while supervising Nurse Practitioners.

California Medical Evaluators – Qualified Medical Evaluator (2023–Present)

Conduct impartial psychiatric evaluations in workers' compensation cases, including assessment of psychiatric injury, impairment, apportionment, and treatment recommendations. Determine disability status and ability to return to work.

Telecare Crisis Stabilization Unit – Psychiatrist / Nurse-Practitioner Supervisor (2018–Present)

Diagnose and treat patients presenting in acute psychiatric crisis through therapy and medication management. Assess level of care needs and supervise Nurse Practitioners.

Richard J. Donovan Correctional Facility – Staff Psychiatrist (2020–2023)

Managed a 28-bed inpatient psychiatric unit. Stabilized acute psychiatric conditions including psychosis, mania, depression, suicidality, and substance withdrawal. Coordinated care with psychologists and facilitated discharge planning to reduce relapse and recidivism.

Kaiser Permanente Outpatient Telepsychiatry – Psychiatrist (2021)

Provided urgent telepsychiatric evaluations, risk assessments, and treatment initiation for patients in crisis.

Kaiser Permanente Fontana Emergency Department – Psychiatrist (2018–2020)

Conducted emergency psychiatric evaluations, initiated crisis stabilization, and coordinated outpatient follow-up.

Additional Prior Roles:

- Medical Scribe – Seton Medical Center, San Francisco, CA
- Academic Tutor – Department of Rehabilitation, UC Berkeley
- Tutor / Supervisor – LeConte Elementary School, Berkeley, CA
- Finance Intern – Mindjet LLC, San Francisco, CA
- Laborer / Job Supervisor – San Francisco Commercial Builders

Research

Research Assistant – UCSF Cardiovascular Research Institute (2011)

Investigated the role of sphingosine-1-phosphate (S1P) receptors in endothelial barrier integrity and thrombosis using genetically modified mice.
